

The complete practice management system

Built Exclusively for Indian Homeopathy Clinics

Every form. Every field. Every workflow was built alongside homeopaths — so your software works the way you already do.

-  Patient records & case-taking
-  Visit logging & prescriptions
-  Follow-up & symptom tracking
-  Billing & payment management
-  Clinic reports & doctor analytics
-  Multi-user & multi-location

One platform. Customized workflows. Nothing slips through the cracks

- 1

Register patient
Name + contact.
Auto-generates Unique Patient ID.
Takes under 2 minutes.
- 2

Deep case-taking
Full constitutional form — thermals, family history, menstrual, physical exam.
Sourced from real doctors.
- 3

Log the visit
Prescriptions, interpretation, charges — all on one screen.
Medical staff sees prescriptions instantly.
- 4

Track & follow up
Custom symptom-tracking form. See improvement across visits. Acute + constitutional + intercurrent remedy history.

Everything your clinic needs. Nothing it doesn't.

Designed for the way you actually consult.

We worked with experienced homeopaths to design HomeoMate.

We know it works. And we know you need it.
